

KETAN CHAVDA

Full Stack Developer & Team Lead | Laravel · Next.js · Node.js · Flutter · PHP · Python · PostgreSQL · AWS · REST APIs

ketanchavda225@gmail.com | 8866757086 | [linkedin.com/in/ketanchavda21](https://www.linkedin.com/in/ketanchavda21) | Ahmedabad, India

PROFESSIONAL SUMMARY

Versatile Full Stack Developer and Team Lead with nearly 5 years of experience building and scaling production-grade applications across Web, Mobile, Backend, and Cloud. Proven track record of designing REST APIs, optimizing SQL performance, and architecting enterprise systems end-to-end using Laravel, PHP, Next.js, and Node.js, with hands-on Flutter mobile development. Experienced in leading development teams, owning project timelines, and coordinating delivery across cross-functional stakeholders. Founder of a self-built eCommerce platform (Ramkada.in), demonstrating full-cycle ownership from concept to production, combined with AI-assisted development workflows and a fast-learning, problem-solving mindset.

TECHNICAL SKILLS

Languages: PHP, JavaScript, TypeScript, Python

Frontend: Next.js, React, HTML5, CSS3, Tailwind CSS, Bootstrap, jQuery

Mobile: Flutter, Dart (Cross-Platform App Development)

Backend: Laravel, Node.js, Express.js, REST API Design

Databases: PostgreSQL, MySQL, Neon

Cloud & DevOps: AWS (EC2), Vercel, Git, GitHub, Linux CLI, Postman, WordPress

Leadership: Team Leadership, Sprint Planning, Task Allocation, Code Reviews, Stakeholder Communication, Mentoring

AI-Assisted Development: ChatGPT, Claude, GitHub Copilot, Cursor AI

PROFESSIONAL EXPERIENCE

Full Stack Developer & Team Lead

April 2023 – Present

NeuroSky Tech — internally transferred to parent company Countrywide Logistics (payroll transition), Ahmedabad

- **Led and mentored a developer team**, coordinating sprint planning, task allocation, and code reviews for on-time, quality delivery.
- **Architected a Transport Management System from scratch**, designing scalable backend architecture and enterprise-grade REST APIs adopted as a core operational tool.
- **Engineered third-party integrations** for GST, PAN, bank account, and driving licence verification plus Google Maps, enabling automated compliance and real-time tracking.
- **Built an interactive Admin Dashboard** with live analytics and reporting charts for real-time operational visibility.
- **Owned end-to-end delivery of key modules** (Survey, Appraisal, Reporting, Attendance, Conveyance), managing timelines from requirements through deployment.
- **Optimized SQL queries and database structures**, improving application response times and reducing production load.
- **Partnered with UI/UX teams and stakeholders** to refine workflows, improving usability and reducing user-reported friction.

Laravel Developer

July 2021 – March 2023

Phoenix Binary System Pvt. Ltd., Ahmedabad

- **Delivered full-stack web solutions** using Laravel, PHP, JavaScript, AJAX, and jQuery across multiple Management System and eCommerce client projects.
- **Built and maintained SQL databases** with a focus on efficient data storage, retrieval, and integrity.
- **Developed Laravel-based REST APIs** for mobile applications, enabling reliable data exchange between client and server.
- **Shipped diverse production projects** independently, demonstrating adaptability across domains and client requirements.

PROJECTS

Ramkada.in — Founder & Full Stack Developer

Next.js · Node.js · PostgreSQL (Neon) | Deployed on Vercel

- Built a complete eCommerce platform from concept to production, single-handedly owning frontend, backend, database design, and authentication.
- Developed an admin panel and product management system, with performance and SEO optimization to drive organic traffic.
- Delivered a fully responsive, production-deployed application, handling bug fixes and iterative improvements post-launch.

MarkitUpGroup — Full Stack Developer

Next.js (Frontend) · Python (Backend) | Vercel + AWS EC2 (Free Tier)

- Built a responsive Next.js frontend integrated with a Python backend, configuring AWS EC2 for production hosting.
- Managed deployment automation and production bug fixing, along with API integration and performance tuning.

MechTech.org — WordPress Developer

- Built and customized a complete WordPress website, integrating plugins and optimizing for speed, SEO, and security.

Expense Management Application — Flutter Developer

Flutter · Dart · Laravel REST APIs · MySQL

- Built a cross-platform expense tracking mobile application in Flutter, integrated with secure Laravel REST APIs for authentication and data management.
- Implemented user authentication, authorization, and expense management features, with efficient JSON parsing and API consumption.
- Optimized app performance and UX, collaborating closely with backend development to ensure seamless data flow.

Discount Buddy — Flutter Developer

Flutter · Dart · Python REST APIs

- Developed a cross-platform mobile application in Flutter with a responsive, user-friendly UI, integrated with Python REST APIs.
- Handled REST API consumption and JSON data processing, optimizing performance and resolving production issues to improve stability.

AI-ASSISTED DEVELOPMENT

Actively integrates AI tools (ChatGPT, Claude, GitHub Copilot, Cursor AI) into daily workflow to generate production-ready code, debug faster, learn new frameworks quickly, write documentation, and reduce repetitive work — consistently increasing development speed and output quality.

CORE COMPETENCIES

Project Management • Team Leadership • Agile Methodology • SDLC • System Design & Scalability • Microservice Design • Performance Optimization • Debugging & Root-Cause Analysis • REST API Design • Stakeholder Communication

EDUCATION

Bachelor of Engineering, Information Technology <i>Kalol Institute of Technology, Kalol • CGPA: 7.13/10</i>	2020 – 2024
Diploma, Information Technology <i>R.C. Technical Institute, Ahmedabad • CGPA: 6.61/10</i>	2016 – 2020

LANGUAGES

English • Hindi • Gujarati
